ABOUT ME

Economist with a background in data analysis and decision-making, and strong communication skills to explain findings clearly. Experienced in using statistical analysis tools, database management, business intelligence, and data visualization, with a problem-solving mindset and sound judgment.

ACADEMIC EXPERIENCE

2022-2026 **UNIVERSITY PROJECTS – DATA ANALYSIS AND SOFTWARE**

- Developed academic projects using Python, R, and Stata for data cleaning, processing, and analysis.
- Applied statistical and quantitative analysis to interpret data and support evidence-based decision-making.
- Created visualizations and reports to communicate findings clearly and effectively.

WORK EXPERIENCE

2025-2026 **ADMINISTRATIVE AND OPERATIONS ASSISTANT | FRESH PRODUCE STORE**

Provided administrative and operational support, contributing to inventory management, daily business activities, and process improvement.

- Managed inventory control, product registration, and order tracking.
- Organized merchandise and monitored stock levels.
- Supported daily administrative and operational activities.
- Identified opportunities for process improvement, enhancing inventory management and operational efficiency.
